# ENGLISH OAK EVOLUTION

English Oak Evolution is our latest pattern which has been developed to perform in all seasons. Designed by our in house team, we have created a three dimensional pattern that still uses oak branches, leaves and even the odd acorn throughout the seasons to create a high contrast effect. These are layered in a multi-directional design which helps to break up the wearer's shape and enable them to blend into the natural surroundings at all times of the year.

JACK PYKE OF ENGLAND
